PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building production web applications with React, TypeScript, and Next.js, including enterprise systems in regulated fintech. Strong in UI architecture, testing, performance optimization, accessibility, and data visualization, working closely with product, design, and backend teams in Agile environments. Currently applying AI-assisted development workflows (Claude Code) to deliver full-stack projects faster.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, React Native, Node.js, HTML5, CSS/Sass, Tailwind CSS

UI Engineering: Accessibility (WCAG), Responsive design, Design systems, Data visualization, Headless CMS

State & Data: Redux, Context API, State machines, REST APIs, tRPC, API contracts

Testing & Performance: Jest, React Testing Library, Unit & integration testing, Code splitting, Lazy loading

Tooling & Delivery: Git, GitHub, CI/CD, Vite, Webpack, npm, Docker (basic), Vercel, Netlify, Serverless functions

Ways of Working: Agile/Scrum, Code reviews, Figma handoff, AI-assisted development (Claude Code)

PROFESSIONAL EXPERIENCE

Independent Frontend Developer — Personal Projects Feb 2026 – Present

- **Sejmograf.pl** (sejmograf.pl): Full-stack Next.js app tracking all 460 Polish MPs: attendance, party loyalty, speeches and ~5,000 votes, fed by a daily GitHub Actions pipeline that scrapes the official Sejm API.
- **Wycieczka Wyborcza** (voter-trip-git-main-adborowskis-projects.vercel.app): Google Maps trip planner for the 2023 Polish election: scraped electoral data and seat-swing maths route voters to where their vote counts most.
- **BronCalc** (broncalc.vercel.app): Glaze slurry calculator for potters built on Brongniart's formula, with Glazy.org recipe import, a curated materials dataset, unit-tested maths and printable studio plans.
- **Central Rental** (central-rental-redo.vercel.app/en): Solo, end-to-end rebuild of an apartment rental business's website: trilingual (PL/EN/RU), apartment catalogue, OpenStreetMap locations and booking engine integration.
- Designed, built and shipped every project end to end, from data pipelines and scraping to UI and deployment, using AI-assisted development workflows (Claude Code).

Frontend Developer — IPF Digital Feb 2025 – Jan 2026

- Refactored legacy code in a loan processing system handling 10,000+ transactions per day, improving maintainability and reducing technical debt.
- Implemented a modern state management architecture and defined frontend–backend API contracts.
- Delivered a new short-term loan module for critical user workflows, tested with Jest and React Testing Library.

Frontend Developer — Codesealer Dec 2023 – Oct 2024

- Built content-driven interfaces for a cybersecurity platform with animations, data visualizations, and Headless CMS.
- Worked closely with product, design, and backend teams to implement complex UI patterns.
- Reduced initial load size with code splitting and lazy loading across the shared component library.

Frontend Developer — Finalto Feb 2023 – Nov 2023

- Developed interactive financial dashboards and real-time data visualization components in React.
- Designed and implemented structured onboarding flows using a state machine architecture.
- Built motion-driven UIs, balancing performance and visual quality.

Frontend Developer — Cybercrypt Nov 2020 – Mar 2022

- Built interactive security analytics dashboards with custom React components.
- Developed marketing and product landing pages with Next.js, optimized for conversion.
- Established design system patterns and motion-driven components for a reusable component library.

EDUCATION, CERTIFICATIONS & LANGUAGES

MSc Business Administration and E-Business — Copenhagen Business School 2020 – 2022

BA Web Development — Copenhagen School of Design and Technology (KEA) 2016 – 2020

LLB English Law — University of Reading, UK 2013 – 2016

Certifications: HackerRank React Developer Certificate; Cambridge Certificate of Proficiency in English (CPE), C2

Languages: Polish (Native), English (C2, including legal English)
